Defensive Tactics Instructor Update (Arrest & Control)

COURSE OBJECTIVES

Under the supervision of an instructor the student will:

I. Demonstrate an understanding of the legal issues, liabilities, practices and philosophy of use of force as outlined in Learning Domain 20 of the P.O.S.T. Basic Course.

II. Demonstrate an understanding of the principles and concepts of Arrest & Control as outlined in Learning Domain 33 of the P.O.S.T. Basic Course. This is to include: hazards in approaching suspects, positioning, contact and cover, tactical decision making, tactical communications, principles of person searches and restraint devices, prisoner transportation, carotid control hold, baton tactics, vulnerable areas of the body and personal weapons, officer performance in close combat situations and integration of force options.

III. Demonstrate an understanding of course development, class planning, instructional techniques and methodology, instructor liability and record keeping for the defensive tactics program.

IV. Demonstrate proficiency in the physical techniques of defensive tactics to include: Stance, positioning, footwork and movement, roll and recovery, control holds, take downs, searching and handcuffing techniques including: cursory, standing, kneeling and prone searching and handcuffing techniques as well as finding weapons and dealing with resistance during these, and controlling handcuffed prisoners. Application of the carotid control hold, take downs leading to the carotid control hold and handcuffing techniques following the application of the hold. Gun retention, weapon take-away and an introduction to basic weaponless defense and ground defense.
